OUTBACK SUNROOF™

OUTBACK SUNROOF™ FOR THE BEST OF YOUR WEATHER

Control your outdoor living weather with the innovative Stratco Outback Sunroof. Its electronically controlled louvres can be opened and closed to your desired position. Let the breeze and sunlight in when the weather is fine, and provide protection when the clouds set in. By adjusting the rotating louvres with the hand held remote or wall mount switch, you can easily control the level of sunlight, shade and weather shielding. The system has an inbuilt rain sensor that will automatically close the blades if rain is detected. When the louvres are completely shut they form a beautiful ceiling-like interlocking profile that protects you from the weather.

SUPERIOR DESIGN

The Stratco Outback Sunroof is available in a flat and gable roof design. It can span up to 3.9 metres for flat, and 7.2 metres for gable designs thanks to its strong, well-engineered blades. The powder coated aluminium blades have an inbuilt weather strip to reduce noise and form a tight seal. The moving parts use specially designed bushes for whisper quiet performance, and the blades are driven by a powerful 24 volt DC linear actuator for reliable long life operation.
